NOTES:

ATTITUDE TO INVESTMENT RISK

When investing out of deposit based investments or National Savings you should be aware that investments which are backed by Stocks, Shares and other Securities will contain a degree of "risk". The amount of risk that you are prepared to accept is important to the recommendations we will make. Lower risk investments may not offer the same potential long term gain as higher risk investments.

No Risk: You are unwilling to take a risk that the value of your invested funds may go down due to performance.

Cautious: You are only willing to take a limited degree of risk with your investments and would prefer most of your monies to be in assets which are unlikely to suffer any significant falls in value.

Balanced: You are willing to take some degree of risk with your investments and accept that, with the aim of achieving increased returns in the longer term, the value of your investments may suffer reasonable levels of fluctuation.

Speculative: You are willing to take high levels of risk with your investments, with the aim of achieving higher returns in the longer term, and understand that this may mean that the value of your investments may fluctuate significantly over time.

Please indicate your appetite for "Investment Risk"

Self: **Partner:**

Would you like to consider geographical, ethical, social environmental, sustainability or faith based issues when looking to where you might invest?

.....
.....

Please indicate your preferred term for investment.

Short term (Less than 5 years)	Medium Term (5 to 10 years)	Longer Term (10 years plus)

I/We confirm that the information provided is to the best of my/our knowledge accurate. I/we have provided this information understanding that it is used to form the basis of any advice and recommendations made to me/us and that I/we are not obliged to take up the recommendations provided.

I/We understand that recommendations may be made which involve a regular monetary commitment or the investment of a lump sum investment of capital. I/we must be sure that we are able to afford the level of the regular payment or lump sum investment having given consideration to all other expenditure and the provision for any emergencies which may require access to funds.
